

Davit Mujirishvili

Middle QA Engineer | Python | Backend Testing | Linux

Georgia · heyitsdavit@gmail.com · +995 568 61 39 89 · GitHub · LinkedIn · Portfolio

SUMMARY

Results-driven Software QA Engineer with 3+ years of specialized experience in backend testing and quality assurance for Nasdaq-powered financial trading platforms. Proven expertise in Python automation, Linux system administration, API testing, and financial message protocol validation.

EXPERIENCE

Middle QA Engineer — Exactpro

2022 – Present · Remote

- Identified and reported 200+ backend defects, including critical issues in financial transaction workflows.
- Built 10+ Python+Bash utilities to automate repetitive QA tasks (e.g., password resets, trade submission, report generation).
- Conduct backend testing for post-trade financial platforms ensuring reliability and data integrity.
- Collaborate closely with developers to resolve root causes and improve system stability.
- Execute, monitor, and analyze daily automated and manual test runs.

Self Employed — Owner & Operator

2018 – 2022 · Tbilisi

- Built and managed an online store handling website updates, sales strategy, and customer service.
- Designed and maintained website layouts with HTML & CSS.
- Developed analytical and business management skills through daily operations and client engagement.
